NAVIGATOR PORT USER COURSE

Course code: NAV-01

Duration: 1 day

Prerequisite:
Basic understanding of ship operations.

Description

The course focuses on best practice use of the Navigator Port port clearance software product modules and how to utilize the system to save time and improve quality of the ship reporting, which will improve the efficiency and safety of the ship operations.

Learning objectives

After the course you should be able to utilize the Navigator modules in your daily ship operations to:

- Reduce on board paperwork by up to 90%
- Maintain the ship specific database of crew lists, ship data, etc.
- Use the prefilled port forms and find port information
- Follow the port entry and departure checklists
- Navigate in the library to find rules and regulations
- Use the ship specific Requirement Explorer (REX)
- Use of the ship relevant add-on modules:
 - Work and rest hours reporting: follow up of MLC 2006
 - Passage planner: under keel clearance, air draft and SQUAT calculations
 - Shore, fleet monitoring of e.g. work and rest non-compliance
 - System installation and update monitoring
 - Learn how to update and maintain the system

Target group

Masters, captains, navigators, officers, crewing managers and officer conferences.

SHIPMANAGER SURVEY SIMULATOR INTRODUCTION

Course code: SM-01

Duration: 1 day

Prerequisite:
Basic knowledge about
ShipManager Survey
Simulator from user manual,
tutorials and training videos.

Description

The course introduces ShipManager Survey Simulator software focusing on using available tools and features during training. It gives more knowledge and insight into philosophy of application.

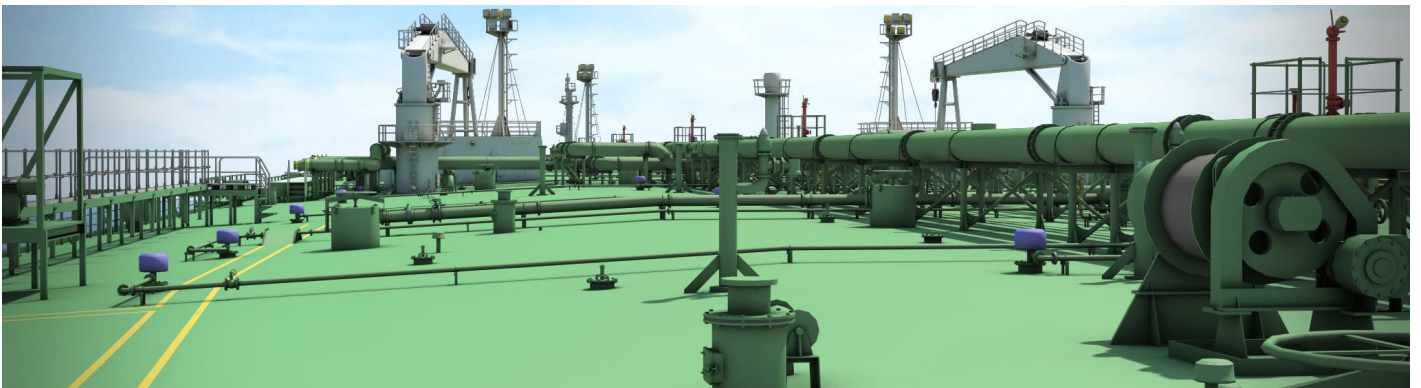

You will learn how to use the Survey Simulator to its maximum.

Learning objectives

You will learn how to use learning tools within Survey Simulator and how to use self-learning modules.

Target group

Users working in the maritime industry

SHIPMANAGER SURVEY SIMULATOR FOR TRAINERS

Course code: SM-01

Duration: 2-3 days

Prerequisite:

Basic knowledge about ShipManager Survey Simulator from user manual, tutorials and training videos.

Description

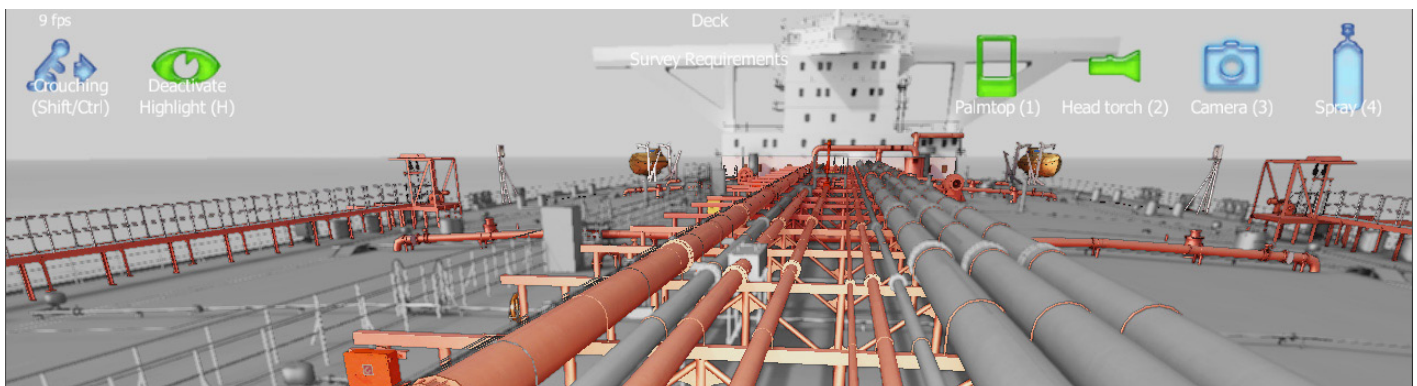

The course is designed to train the trainers using ShipManager Survey Simulator. You will gain knowledge about possibilities for trainers using this application.

Learning objectives

You will learn how to run courses and training sessions based on or just using Survey Simulator. The course gives complex knowledge about the learning content of the application and learning tools.

Target group

Trainers who intend to use Survey Simulator or teach others how to use this software.

SAFER, SMARTER, GREENER

DNV GL AS
